

MOHAMMED AWOL NEGASH

Aspiring Full-Stack Software Engineer | Mobile App Developer

Phone: +251 9 389 66 66 5 | Email: awolmohammed214@gmail.com | Location: Addis Ababa, Ethiopia

PROFESSIONAL SUMMARY

Motivated and detail-oriented **Information Systems** student with hands-on experience in full-stack development, mobile application design, and database management. Combines technical engineering capabilities with foundational knowledge in **Accounting and Finance**, making them uniquely positioned to develop secure, data-driven financial technologies and enterprise solutions.

EDUCATION

Bachelor of Science in Information Systems

Bahir Dar University, Ethiopia Graduated: 27/06/2026

BA Degree in Accounting and Finance

Ambassador college | Bahir Dar, Ethiopia Expected to Graduate: 2027

PROFESSIONAL EXPERIENCE

IT Operations Professional | *Ghion Homes Real Estate, Addis Ababa August 2025 — September 2025*

Managed local computing infrastructure, software environments, and internal technical documentation

Optimized workplace data systems, process modeling architectures, and local network diagnostics.

Academic Instructor | *Addis Ababa, Ethiopia January 2022 — July 2022*

Designed and facilitated hands-on educational sessions to systematically improve student grades over a six-month tenure.

Fostered strong collaborative links with parents, students, and peers while establishing clear performance evaluation and analytics loops.

TECHNICAL SKILLS & CORE COMPETENCIES

- **Programming Languages:** Java, JavaScript, PHP, Python, HTML5, CSS3, SQL
- **Frameworks & Libraries:** Laravel, Flutter, Vue.js, React
- **Database Management:** MySQL, SQLite, SQL Normalization, Relational Database Design
- **Tools & Technologies:** Git, GitHub, Android Studio, VS Code, XAMPP,
- **Core Architectural Knowledge:** Object-Oriented Analysis & Design (OOAD), Data Structures & Algorithms, Network Fundamentals, Software Testing, Agile Methodologies, Data Mining, System Analysis

TECHNICAL PROJECTS & PRACTICAL EXPERIENCE

• **Smart Digital Service Marketplace (SkillLink) — Project Lead**

Leading system design, functional architecture development, and business optimization rules for an on-demand marketplace platform tailored to connect service providers and clients within the local Ethiopian market.

• **Social Media Web Application — Full-Stack Developer**

Developed a comprehensive social networking web application using Laravel with a Vue.js/React frontend and MySQL database. Implemented secure user authentication, responsive UI layouts, and structured database components.

- **Smart To-Do List Mobile Application — Mobile Developer**

Engineered a feature-rich, cross-platform mobile application using Flutter and SQLite. Integrated background notifications, local reminders, multi-tier custom task categories, and prioritization queues.

- **Online Marketing Management System — Database & Backend Developer**

Architected and deployed a multi-module marketing tracking system focused on campaign metrics and customer synchronization using reliable database schema configurations and core software testing practices.

- **Data Mining & Association Rule Explorer — Academic Collaborator**

Co-developed an analytical module utilizing Python to execute the Apriori algorithm on complex datasets, discovering hidden patterns and transactional rules within an agile 3-student team project framework.

STRENGTHS & PROFESSIONAL ATTRIBUTES

- Highly adaptable fast learner capable of rapidly mastering modern engineering tools and frameworks.
- Structured problem-solver with strong technical, analytical, and troubleshooting capabilities.
- Effective collaborator with clear interpersonal communication skills tailored for multidisciplinary teams.
- Highly responsible, dependable, and organized with solid timeline and milestone management.

CERTIFICATIONS & TRAINING

- Academic Lab Training: Software Engineering, Database Systems, and Full-Stack Implementation
- Independent Specializations: Flutter Application Development, Laravel System Architectures, Web Technologies, and Cybersecurity Foundations

LANGUAGES & INTERESTS

Languages: Amharic (Native Proficiency) | English (Professional Working Proficiency) | Arabic (Good Proficiency)

Interests: Full-Stack Software Development, Mobile App Innovation, Cybersecurity & Ethical Hacking, Artificial Intelligence, Open-Source Technologies, Cloud Solutions, Competitive Programming.
